

KUBE Ceiling Lens Array TR248

Features:

- MultiZone lens for alarms and light switches
- Powerful, for medium range applications
- Medium field of view, dense pattern, ceiling mount
- Low false alarm rates
- Flat design

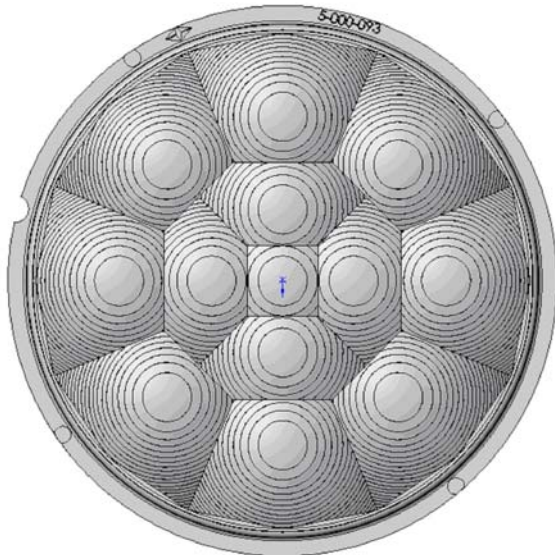

Properties

Recommended Range :	12 meters
Installation height :	2 - 12 meters
13 lens elements :	1 center, 4 narrow, 8 wide
Horizontal angle :	53°
Vertical Angle :	53°
Focal length :	23 mm
Lens diameter :	38.6 mm / 36.46 mm
Lens material :	High density polyethylene
Colors :	natural, other colors on special order
Fixation :	mechanical on rim, lens flat
Ideal to comply with :	medium field of view applications

Note: optimized for dual element pyroelectric sensors

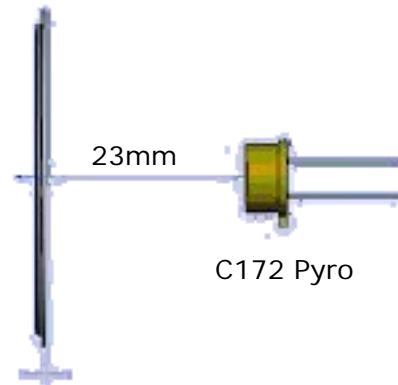

Drawing

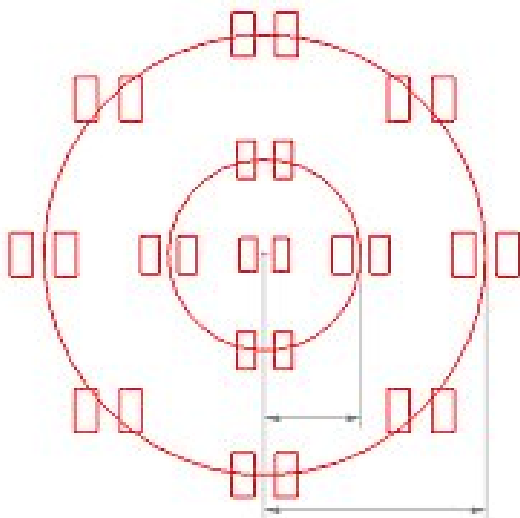

Angle between notch and horizontal 15°

Recommended mounting

Material thickness 0.46mm

Field of view (Top)

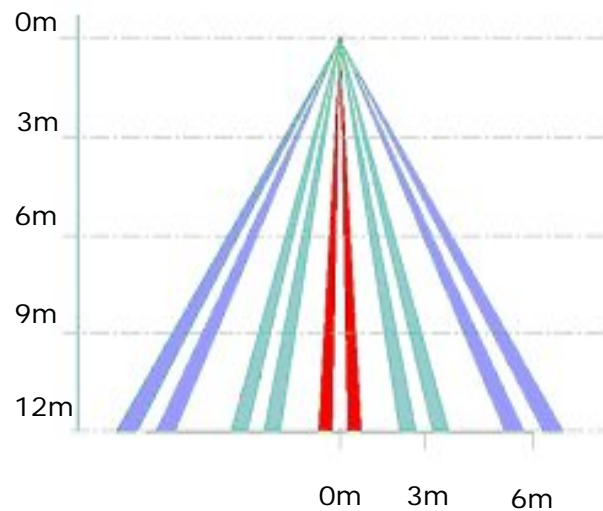

Inner radius 2.65 m

Outer radius 6.1 m

(Mounting height 12 m)

Field of view (Side)

For special applications,
wall mounting is also possible
